Press Announcement

Re: ASU HARD LANDING AND ROLLOVER

To our colleagues in the rotor community:

On Tuesday, June 29th, at 1345ET, Aviation Services Unlimited, d/b/a Uniflight Global Flight Services, experienced a hard landing and rollover on the runway while conducting a local FAR 135 check ride. We are elated that all three occupants walked away from the scene.

At this point in time an FAA investigation is underway.

We deeply appreciate the words of encouragement and kind thoughts sent from the community.

Sincerely,
Aviation Services Unlimited
